#### **Forward-Looking Statements**

This report and other documents filed by us contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect management's current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates" or the negative versions of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these forward-looking statements. We believe that these factors include, but are not limited to, the risks described in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2022 (the Form 10-K), which is accessible on the Securities and Exchange Commission's website at www.sec.gov and on our website at www.cohenandsteers.com. These factors are not exhaustive and should be read in conjunction with the other cautionary statements that are included in this report, the Form 10-K and our other filings with the Securities and Exchange Commission. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

# COHEN & STEERS, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### 1. Organization and Description of Business

Cohen & Steers, Inc. (CNS) was organized as a Delaware corporation on March 17, 2004. CNS is the holding company for its direct and indirect subsidiaries, including Cohen & Steers Capital Management, Inc. (CSCM), Cohen & Steers Securities, LLC (CSS), Cohen & Steers UK Limited (CSUK), Cohen & Steers Ireland Limited (CSIL), Cohen & Steers Asia Limited (CSAL), Cohen & Steers Japan Limited (CSJL) and Cohen & Steers Singapore Private Limited (CSSG) (collectively, the Company).

The Company is a global investment manager specializing in real assets and alternative income, including real estate, preferred securities, infrastructure, resource equities, commodities, as well as multi-strategy solutions. Founded in 1986, the Company is headquartered in New York City, with offices in London, Dublin, Hong Kong, Tokyo and Singapore.

#### 2. Basis of Presentation and Significant Accounting Policies

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The condensed consolidated financial statements set forth herein include the accounts of CNS and its direct and indirect subsidiaries. Intercompany balances and transactions have been eliminated in consolidation.

The condensed consolidated financial statements of the Company included herein are unaudited and have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the interim results have been made. The Company's condensed consolidated financial statements and the related notes should be read together with the consolidated financial statements and the related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

Accounting Estimates—The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the dates of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Management believes the estimates used in preparing the condensed consolidated financial statements are reasonable and prudent. Actual results could differ from those estimates.

Consolidation of Investment Vehicles—The Company's financial interests in investment vehicles, including the management fees that are received, are evaluated at inception and thereafter, if there is a reconsideration event, in order to determine whether to apply the Variable Interest Entity (VIE) model or the Voting Interest Entity (VOE) model.

A VIE is an entity in which either the equity investment at risk is not sufficient to permit the entity to finance its own activities without additional financial support or the group of holders of the equity investment at risk lack certain characteristics of a controlling financial interest. The primary beneficiary is the entity that has the power to direct the activities of the VIE that most significantly affect its performance, and the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the VIE. Subscriptions and redemptions or amendments to the governing documents of the respective entities could affect an entity's status as a VIE or the determination of the primary beneficiary. Limited partnerships and similar entities are determined to be a VIE when the Company is the general partner and the limited partners do not hold substantive kick-out or participation rights. The Company assesses whether it is the primary beneficiary of any VIEs identified by evaluating its economic interests in the entity held either directly by the Company and its affiliates or indirectly through employees. VIEs for which the Company is deemed to be the primary beneficiary are consolidated.

Investments that are determined to be VOEs are consolidated when the Company's ownership interest is greater than 50% of the outstanding voting interests of the vehicle.

The Company records noncontrolling interests in consolidated investment vehicles for which the Company's ownership is less than 100%.

# NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (UNAUDITED)

Cash and Cash Equivalents—Cash and cash equivalents include short-term, highly liquid investments, which are readily convertible into cash and have original maturities of three months or less.

Due from/to Brokers—The Company, including the consolidated investment vehicles, may transact with brokers for certain investment activities. The clearing and custody operations for these investment activities are performed pursuant to contractual agreements. The due from/to brokers balances represent cash and/or cash collateral balances at brokers/custodians and/or receivables and payables for unsettled securities transactions with brokers/custodians.

*Investments*—Management of the Company determines the appropriate classification of its investments at the time of purchase and re-evaluates such determination no less than on a quarterly basis. The Company's investments are categorized as follows:

- Equity investments at fair value generally represent common stocks, limited partnership interests, master limited partnership interests, preferred securities and other seed investments in Company-sponsored vehicles.
- Trading investments generally represent U.S. Treasury securities and investment-grade corporate debt securities.

Realized and unrealized gains and losses on our investments are recorded in gain (loss) from investments—net in the Company's condensed consolidated statements of operations.

From time to time, the Company, including the consolidated investment vehicles, may enter into derivative contracts, including options, futures and swaps contracts, to gain exposure to the underlying commodities markets or to economically hedge market risk of the underlying portfolios. Gains and losses on derivative contracts are recorded in gain (loss) from investments—net in the Company's condensed consolidated statements of operations. The fair values of these instruments are recorded in other assets or other liabilities and accrued expenses on the Company's condensed consolidated statements of financial condition.

Additionally, from time to time, the Company, including the consolidated investment vehicles, may enter into forward foreign exchange contracts to economically hedge currency exposure. These instruments are measured at fair value based on the prevailing forward exchange rate with gains and losses recorded in foreign currency gain (loss)—net in the Company's condensed consolidated statements of operations. The fair values of these contracts are recorded in other assets or other liabilities and accrued expenses on the Company's condensed consolidated statements of financial condition.

Leases—The Company determines if an arrangement is a lease at inception. The Company has operating leases for corporate offices and certain information technology equipment which are included in operating lease right-of-use (ROU) assets and operating lease liabilities on the Company's condensed consolidated statements of financial condition.

ROU assets represent the right to use an underlying asset for the lease term and lease liabilities represent obligations to make lease payments arising from the lease. Operating lease ROU assets and lease liabilities are recognized at commencement date based on the net present value of lease payments over the life of the lease and thereafter, are remeasured if there is a change in lease terms. The majority of the Company's lease agreements do not provide an implicit rate. As a result, the Company used its estimated incremental borrowing rate based on the information available as of lease commencement dates in determining the present value of lease payments. The operating lease ROU assets reflect any upfront lease payments made as well as lease incentives received. During the second quarter of 2023, the Company incurred costs related to the build-out of its future headquarters which qualified for reimbursement from the landlord. As a result, the Company remeasured its ROU asset and lease liability resulting in a \$22.2 million reduction.

The lease terms may include options to extend or terminate the lease and these are factored into the determination of the ROU asset and lease liability at lease inception when and if it is reasonably certain that the Company will exercise that option. Lease expense for fixed lease payments is recognized on a straight-line basis over the lease term.

The Company has certain lease agreements with non-lease components such as maintenance and executory costs, which are accounted for separately and not included in ROU assets.

ROU assets are tested for impairment whenever changes in facts or circumstances indicate that the carrying amount of an asset may not be recoverable. Modification of a lease term would result in remeasurement of the lease liability and a corresponding adjustment to the ROU asset.

Noncontrolling Interests—Noncontrolling interests consist of nonredeemable and redeemable third-party interests in the Company's consolidated investment vehicles. Noncontrolling interests that are not redeemable at the option of the investors are classified as nonredeemable noncontrolling interests and are included in stockholders' equity. Noncontrolling interests that are redeemable at the option of the investors are classified as redeemable noncontrolling interests and are not treated as permanent equity. Noncontrolling interests are recorded at fair value which approximates the net asset value at each reporting period.

Investment Advisory and Administration Fees—The Company earns revenue by providing asset management services to institutional accounts, open-end and closed-end funds as well as model-based portfolios. Investment advisory fees are earned pursuant to the terms of investment management agreements and are generally based on a contractual fee rate applied to the average assets under management. The Company also earns administration fees from certain open-end and closed-end funds pursuant to the terms of underlying administration contracts. Administration fees are based on the average daily assets under management of such funds. Investment advisory and administration fee revenue is recognized when earned and is recorded net of any fund reimbursements. The investment advisory and administration contracts each include a single performance obligation as the services provided are not separately identifiable and are accounted for as a series satisfied over time using a time-based method (days elapsed). Additionally, investment advisory and administration fees represent variable consideration, as fees are based on average assets under management which fluctuate daily.

In certain instances, the Company may earn performance fees when specified performance hurdles are met during the performance period. Performance fees are forms of variable consideration and are not recognized until it becomes probable that there will not be a significant reversal of the cumulative revenue recognized.

Distribution and Service Fee Revenue—Distribution and service fee revenue is based on the average daily net assets of certain share classes of open-end funds distributed by CSS. Distribution and service fee revenue is earned daily and is recorded gross of any third-party distribution and service fee expense for applicable share classes.

Distribution fee agreements include a single performance obligation that is satisfied at a point in time when an investor purchases shares in an open-end fund. For all periods presented, a portion of the distribution fee revenue recognized in the period may relate to performance obligations satisfied (or partially satisfied) in prior periods. Service fee agreements include a single performance obligation as the services provided are not separately identifiable and are accounted for as a series satisfied over time using a time-based method (days elapsed). Additionally, distribution and service fees represent variable consideration, as fees are based on average assets under management which fluctuate daily.

*Distribution and Service Fee Expense*—Distribution and service fee expense includes distribution fees, shareholder servicing fees and intermediary assistance payments.

Distribution fees represent payments made to qualified intermediaries for assistance in connection with the distribution of certain open-end funds' shares and for other expenses such as advertising, printing and distribution of prospectuses to investors. Such amounts may also be used to pay financial intermediaries for services as specified in the terms of written agreements complying with Rule 12b-1 of the Investment Company Act of 1940. Distribution fees are based on average daily net assets under management of certain share classes of certain of the funds.

Shareholder servicing fees represent payments made to qualified intermediaries for shareholder account service and maintenance. These services are provided pursuant to written agreements with such qualified institutions. Shareholder servicing fees are generally based on average daily net assets under management.

Intermediary assistance payments represent payments to qualified intermediaries for activities related to distribution, shareholder servicing as well as marketing and support of certain open-end funds and are incremental to those described above. Intermediary assistance payments are generally based on average daily net assets under management.

Stock-based Compensation—The Company recognizes compensation expense for the grant-date fair value of restricted stock unit awards to certain employees. This expense is recognized over the period during which employees are required to provide service. Forfeitures are recorded as incurred. Any change to the key terms of an employee's award subsequent to the grant date is evaluated and, if necessary, accounted for as a modification. If the modification results in the remeasurement of the fair value of the award, the remeasured compensation cost is recognized over the remaining service period.

# NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (UNAUDITED)

Income Taxes—The Company records the current and deferred tax consequences of all transactions that have been recognized in the condensed consolidated financial statements in accordance with the provisions of the enacted tax laws. Deferred tax assets are recognized for temporary differences that will result in deductible amounts in future years at tax rates that are expected to apply in those years. Deferred tax liabilities are recognized for temporary differences that will result in taxable income in future years at tax rates that are expected to apply in those years. The Company records a valuation allowance, when necessary, to reduce deferred tax assets to an amount that more likely than not will be realized. The effective tax rate for interim periods is based on the Company's best estimate of the effective tax rate expected to be applied to the full fiscal year adjusted for discrete tax items during the period.

The calculation of tax liabilities involves uncertainties in the application of complex tax laws and regulations across the Company's global operations. A tax benefit from an uncertain tax position is recognized when it is more likely than not that the position will be sustained upon examination, including resolution of any related appeals or litigation processes, on the basis of the technical merits. The Company records potential interest and penalties related to uncertain tax positions in the provision for income taxes in the condensed consolidated statements of operations.

Comprehensive Income—The Company reports all changes in comprehensive income in the condensed consolidated statements of comprehensive income. Comprehensive income generally includes net income or loss attributable to common stockholders and amounts attributable to foreign currency translation gain (loss).

Currency Translation and Transactions—Assets and liabilities of subsidiaries having non-U.S. dollar functional currencies are translated at exchange rates at the applicable condensed consolidated statement of financial condition date. Revenue and expenses of such subsidiaries are translated at average exchange rates during the period. The gains or losses resulting from translating non-U.S. dollar functional currency into U.S. dollars are included in the Company's condensed consolidated statements of comprehensive income. The cumulative translation adjustment was \$(8.5) million and \$(10.8) million at June 30, 2023 and December 31, 2022, respectively, and was reported within accumulated other comprehensive income (loss) on the condensed consolidated statements of financial condition. Gains or losses resulting from transactions denominated in currencies other than the U.S. dollar within certain foreign subsidiaries and gains and losses arising on revaluation of U.S. dollar-denominated assets and liabilities held by certain foreign subsidiaries are included in foreign currency gain (loss)—net in the Company's condensed consolidated statements of operations.

Recently Issued Accounting Pronouncements—In June 2022, the Financial Accounting Standards Board issued Accounting Standards Update 2022-03 (ASU), Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The standard clarifies that contractual sale restrictions are not considered in measuring the fair value of equity securities, which would be a change in practice for certain entities. The ASU also indicates that a contractual sale restriction is not a separate unit of account, and requires new disclosures for all entities with equity securities subject to a contractual sale restriction. This new guidance will be effective on January 1, 2024. The Company does not expect that the adoption of this new standard will have a material effect on the Company's condensed consolidated financial statements and related disclosures.

#### 5. Fair Value

Accounting Standards Codification Topic 820, *Fair Value Measurement* (ASC 820) specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

- Level 1—Unadjusted quoted prices for identical instruments in active markets.
- Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable.
- Level 3—Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

Inputs used to measure fair value might fall in different levels of the fair value hierarchy, in which case the Company defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments.

The following tables present fair value measurements:

	June 30, 2023

<sup>(1)</sup> Comprised of certain investments measured at fair value using NAV as a practical expedient.

Equity investments at fair value classified as Level 2 were comprised of common stocks for which quoted prices in active markets are not available. Fair values for the common stocks classified as Level 2 were generally based on quoted prices for similar instruments in active markets.

Equity investments at fair value classified as Level 3 were comprised of limited partnership interests in joint ventures that hold investments in private real estate.

Trading investments classified as Level 2 were comprised of U.S. Treasury securities and corporate debt securities. Fair values were generally determined using third-party pricing services. The pricing services may utilize evaluated pricing models that vary by asset class and incorporate available trade, bid and other market information.

Investments measured at NAV were comprised of certain investments measured at fair value using NAV (or its equivalent) as a practical expedient as follows:

- Equity investments at fair value included:
  - limited partnership interests in private real estate funds; and
  - the Company's co-investment in a Cayman trust invested in global listed infrastructure securities (which is included in "Other" in the leveling table).
- Equity method investments included the Company's partnership interests in Cohen & Steers Global Realty Partners III-TE, L.P. (GRP-TE) and Cohen & Steers Global Listed Infrastructure Fund L.P. (LPGI). GRP-TE invests in non-registered real estate funds and LPGI invests in global infrastructure securities. The Company's ownership interest in GRP-TE was approximately 0.2% at June 30, 2023 and December 31, 2022. The Company's ownership interest in LPGI was approximately 0.01% at June 30, 2023 and December 31, 2022.

# NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (UNAUDITED)

At June 30, 2023 and December 31, 2022, the Company did not have the ability to redeem its limited partnership interests in private real estate funds or its interest in GRP-TE. There were no contractual restrictions on the Company's ability to redeem its interest in the Cayman trust or LPGI.

Investments measured at NAV as a practical expedient have not been classified in the fair value hierarchy. The amounts presented in the above tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the condensed consolidated statements of financial condition.

Total return swap contracts classified as Level 2 were valued based on the underlying futures contracts or equity indices.

Foreign currency exchange contracts classified as Level 2 were valued based on the prevailing forward exchange rate, which is an input that is observable in active markets.

The following table summarizes the changes in Level 3 investments measured at fair value on a recurring basis:

	 Three Mo	nths e 30,			ıded

Unrealized gains (losses) and realized gains (losses), if any, in the above table were recorded in gain (loss) from investments—net in the Company's condensed consolidated statements of operations.

# Valuation Techniques

In certain instances, debt and equity securities are valued on the basis of prices from an orderly transaction between market participants provided by reputable broker-dealers or independent pricing services. In determining the value of a particular investment, independent pricing services may use information with respect to transactions in such investments, broker quotes, pricing matrices, market transactions in comparable investments and various relationships between investments. As part of its independent price verification process, the Company generally performs reviews of valuations provided by broker-dealers or independent pricing services. Investments in funds are valued at their closing price or NAV (or its equivalent) as a practical expedient.

In the absence of observable market prices, the Company values its investments using valuation methodologies applied on a consistent basis. For some investments, little market activity may exist; management's determination of fair value is then based on the best information available in the circumstances, and may incorporate management's own assumptions and involve a significant degree of judgment, taking into consideration a combination of internal and external factors. Such investments are valued no less than on a quarterly basis, taking into consideration any changes in key inputs and changes in economic and other relevant conditions, and valuation models are updated accordingly. The Company has established a valuation committee, comprised of senior members from various departments within the Company, to administer, implement and oversee the valuation policies and procedures. Additionally, the Company has retained an independent valuation services firm to assist in the determination of the fair value of certain private real estate investments.

# NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS—(Continued) (UNAUDITED)

The following table summarizes the valuation techniques and significant unobservable inputs approved by the Valuation Committee for Level 3 investments measured at fair value on a recurring basis:

The fair value of derivative financial instruments is recorded in other assets and other liabilities and accrued expenses on the Company's condensed consolidated statements of financial condition.

The Company's corporate derivatives included:

- Total return swaps which are utilized to economically hedge a portion of the market risk of certain seed investments and to gain exposure for the purpose of establishing a performance track record; and
- Forward foreign exchange contracts which are utilized to economically hedge currency exposure arising from certain non-U.S. dollar investment advisory fees.

Cash and U.S. Treasury securities pledged as collateral for forward and swap contracts totaled \$1.7 million and \$2.2 million at June 30, 2023 and December 31, 2022, respectively. Cash collateral received for swap contracts was \$0.6 million at June 30, 2023.

### 7. Earnings Per Share

Basic earnings per share is calculated by dividing net income attributable to common stockholders by the weighted average shares outstanding. Diluted earnings per share is calculated by dividing net income attributable to common stockholders by the total weighted average shares of common stock outstanding and common stock equivalents determined using the treasury stock method. Common stock equivalents are comprised of dilutive potential shares from restricted stock unit awards and are excluded from the computation if their effect is anti-dilutive.

The following table reconciles income and share data used in the basic and diluted earnings per share computations:

	Three Mor Jun	nths l e 30,	Ended	Six Months Ended June 30,

#### 9. Related Party Transactions

The Company is an investment adviser to, and has administration agreements with, Company-sponsored funds and investment products for which certain employees are officers and/or directors.

The following table summarizes the amount of revenue the Company earned from these affiliated funds:

	Three Mo	nths le 30,	Ended	 Six Mont Jun	nded		
(in thousands)	2023		2022	2023	2022		
Investment advisory and administration fees (1)	81,113	\$	100,803	\$ 166,612	\$	205,040

Total	88,090	\$	109,808	\$ 181,151	\$	223,914	

<sup>(1)</sup> Investment advisory and administration fees are reflected net of fund reimbursements of \$4.3 million for both the three months ended June 30, 2023 and 2022, and \$8.9 million and \$8.6 million for the six months ended June 30, 2023 and 2022, respectively.

Included in accounts receivable at June 30, 2023 and December 31, 2022 are receivables due from Company-sponsored funds, which are generally collectible the next business day, of \$30.7 million and \$32.9 million, respectively. Included in accounts payable at June 30, 2023 and December 31, 2022 are payables due to Company-sponsored funds of \$0.8 million and \$1.0 million, respectively.

Included in other assets at June 30, 2023 and December 31, 2022 is an advance to Cohen & Steers Income Opportunities REIT, Inc. (CNSREIT) of \$6.4 million and \$3.5 million, respectively. CNSREIT will reimburse the Company ratably over a 60-month period commencing at the earlier of December 31, 2025, or the month that CNREIT's NAV is at least \$1.0 billion. At June 30, 2023 and December 31, 2022, the Company determined the advance to be collectible. At June 30, 2023, the Company reclassified the advance from accounts receivable to other assets on its condensed consolidated statement of financial condition as of December 31, 2022.

See discussion of commitments to Company-sponsored vehicles in Note 11.

#### 10. Credit Agreement

On January 20, 2023, the Company entered into a Credit Agreement with Bank of America, N.A. (Credit Agreement) providing for a \$100.0 million senior unsecured revolving credit facility maturing on January 20, 2026. Borrowings under the Credit Agreement bear interest at a variable annual rate equal to, at the Company's option, either, (i) in respect of Term Secured Overnight Financing Rate (SOFR) Loans (as defined in the Credit Agreement), a rate equal to Term SOFR (as defined in the Credit Agreement) in effect for such period plus an applicable rate as determined according to a performance pricing grid and, (ii) in respect of Base Rate Loans (as defined in the Credit Agreement), a rate equal to a Base Rate (as defined in the Credit Agreement) plus an applicable rate as determined according to a performance pricing grid. The Company is also required to pay a commitment fee determined according to a performance pricing grid and based on the actual daily unused amount of the Credit Agreement payable quarterly.

Borrowings under the Credit Agreement may be used for working capital and other general corporate purposes. The Credit Agreement contains affirmative, negative and financial covenants, which are customary for facilities of this type, including with respect to leverage and interest coverage, limitations on priority indebtedness, asset dispositions and fundamental corporate changes. As of June 30, 2023, the Company was in compliance with these covenants.

As of June 30, 2023, the Company had not drawn upon the credit agreement.

### 11. Commitments and Contingencies

From time to time, the Company is involved in legal matters relating to claims arising in the ordinary course of business. There are currently no such matters pending that the Company believes could have a material adverse effect on its consolidated results of operations, cash flows or financial position.

The Company has committed to invest up to \$50.0 million in REOF. As of June 30, 2023, the Company had funded \$21.2 million of this commitment. In addition, the Company has committed to invest up to \$125.0 million in CNSREIT. As of June 30, 2023, the Company had funded \$0.2 million of this commitment to enable CNSREIT to capitalize a share class in preparation for an offering. The timing for funding the remaining portion of the Company's commitments is determined by the investment vehicles.

#### 12. Concentration of Credit Risk

The Company's cash and cash equivalents are principally on deposit with highly rated national financial institutions and are subject to credit risk should these financial institutions be unable to fulfill their obligations. The Company limits its exposure to such credit risks by diversifying its cash and cash equivalents among several highly rated national financial institutions.

#### 13. Subsequent Events

The Company has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the condensed consolidated financial statements were issued. Other than the items described below, the Company determined that there were no additional subsequent events that require disclosure and/or adjustment.

On August 3, 2023, the Company declared a quarterly dividend on its common stock in the amount of \$0.57 per share. This dividend will be payable on August 24, 2023 to stockholders of record at the close of business on August 14, 2023.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Set forth on the following pages is management's discussion and analysis of our financial condition and results of operations for the three and six months ended June 30, 2023 and 2022. Such information should be read in conjunction with our condensed consolidated financial statements and the related notes included herein. The condensed consolidated financial statements of the Company are unaudited. When we use the terms "Cohen & Steers," the "Company," "we," "us," and "our," we mean Cohen & Steers, Inc., a Delaware corporation, and its consolidated subsidiaries.

#### **Executive Overview**

#### General

We are a global investment manager specializing in real assets and alternative income, including real estate, preferred securities, infrastructure, resource equities, commodities, as well as multi-strategy solutions. Founded in 1986, we are headquartered in New York City, with offices in London, Dublin, Hong Kong, Tokyo and Singapore.

Our primary investment strategies include U.S. real estate, preferred securities and low duration preferred securities, global/international real estate, global listed infrastructure, real assets multi-strategy, as well as global natural resource equities. Our strategies seek to achieve a variety of investment objectives for different risk profiles and are actively managed by specialist teams of investment professionals who employ fundamental-driven research and portfolio management processes. We offer our strategies through a variety of investment vehicles, including U.S. and non-U.S. registered funds and other commingled vehicles, separate accounts and subadvised portfolios.

Our distribution network encompasses two major channels, wealth and institutional. Our wealth channel includes registered investment advisers, wirehouses, independent and regional broker dealers and bank trusts. Our institutional channel includes sovereign wealth funds, corporate plans, insurance companies and public funds, including defined benefit and defined contribution plans, as well as other financial institutions that access our investment management services directly or through consultants and other intermediaries.

Our revenue from the wealth channel is primarily derived from investment advisory, administration, distribution and service fees from open-end and closed-end funds as well as other commingled vehicles. Our revenue from the institutional channel is derived from fees received from our clients for managing advised and subadvised accounts. Our fees are based on contractually specified rates applied to the value of the assets we manage and, in certain cases, may include a performance-based fee. Our revenue fluctuates with changes in the total value of our assets under management, which may occur as a result of market appreciation and depreciation, contributions or withdrawals from investor accounts and distributions. This revenue is recognized over the period that the assets are managed.

- (1) Past performance is no guarantee of future results. Outperformance is determined by comparing the annualized investment performance of each investment strategy to the performance of specified reference benchmarks. Investment performance in excess of the performance of the benchmark is considered outperformance. The investment performance calculation of each investment strategy is based on all active accounts and investment models pursuing similar investment objectives. For accounts, actual investment performance is measured gross of fees and net of withholding taxes. For investment models, for which actual investment performance does not exist, the investment performance of a composite of accounts pursuing comparable investment objectives is used as a proxy for actual investment performance. The performance of the specified reference benchmark for each account and investment model is measured net of withholding taxes, where applicable. Morningstar calculates its ratings based on a risk-adjusted return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive five stars, the next 22.5% receive four stars, the next 35% receive three stars, the next 22.5% receive two stars and the bottom 10% receive one star. Past performance is no guarantee of future results. Based on independent rating by Morningstar, Inc. of investment performance of each Cohen & Steers-sponsored open-end U.S.-registered mutual fund for all share classes for the overall period at June 30, 2023. Overall Morningstar rating is a weighted average based on the 3-year, 5-year and 10-year Morningstar rating. Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages. # Reconciliations of U.S. GAAP to As Adjusted Financial Results

Management believes that use of the following as adjusted (non-GAAP) financial results provides greater transparency into the Company's operating performance. In addition, these as adjusted financial results are used to prepare the Company's internal management reports which are used in evaluating its business.

While management believes that these as adjusted financial results are useful in evaluating operating performance, this information should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with U.S. GAAP.

Effective January 1, 2023, the Company revised its methodology for as adjusted results to include interest and dividends from seed investments. Prior period amounts have not been recast to conform with the current period results as the impact was not significant.

### **Changes in Financial Condition, Liquidity and Capital Resources**

We seek to maintain a balance sheet that supports our business strategies and provides the appropriate amount of liquidity at all times.

#### Net Liquid Assets

Our current financial condition is highly liquid and is primarily comprised of cash and cash equivalents, liquid seed investments and other current assets. Liquid assets are reduced by current liabilities (together, net liquid assets).

The table below summarizes net liquid assets:

(in thousands)	June 30, 2023	De	cember 31, 2022
Cash and cash equivalents	5 178,471	\$	247,418
U.S. Treasury securities	9,927		_
Liquid seed investments—net	70,083		67,987
Other current assets	93,801		70,716
Current liabilities	(72,849)		(114,522)
Net liquid assets	279,433	\$	271,599

#### Cash and cash equivalents

Cash and cash equivalents are on deposit with several major national financial institutions and include short-term, highly liquid investments, which are readily convertible into cash and have original maturities of three months or less.

#### U.S. Treasury securities

U.S. Treasury securities are directly issued by the U.S. government and were classified as trading investments.

#### Liquid seed investments—net

Liquid seed investments are generally traded in active markets on major exchanges and can typically be liquidated within a normal settlement cycle. Liquid seed investments include corporate securities held directly for the purpose of establishing performance track records and the Company's economic interest in consolidated investment vehicles which are presented net of noncontrolling interests.

#### Other current assets

Other current assets primarily represent investment advisory and administration fees receivable. At June 30, 2023, receivables from institutional accounts comprised 32.9% of other current assets, while receivables from open-end and closed-end funds, together, comprised 33.9% of other current assets. In addition, other currents assets included a receivable from the landlord related to the build-out of our future headquarters which was netted against the operating lease liabilities on the condensed consolidated statements of financial condition. We perform a review of our receivables on an ongoing basis in order to assess collectability and, based on our analysis at June 30, 2023, there was no allowance for uncollectible accounts required.

#### Current liabilities

Current liabilities included accrued compensation and benefits, distribution and service fees payable, operating lease obligations due within 12 months, certain income taxes payable and other liabilities and accrued expenses.

### Future liquidity needs

Our business has become more capital intensive. Potential uses of capital range from funding the upfront costs associated with closed-end fund launches and rights offerings, seeding new strategies and vehicles, co-investing in private real estate vehicles, and making various one-time investments to grow our firm infrastructure as our business scales. In order to provide us with the financial flexibility to pursue these opportunities, on January 20, 2023, we entered into a Credit Agreement providing for a \$100.0 million senior unsecured revolving credit facility maturing on January 20, 2026. Borrowings under the Credit Agreement will be used for working capital and other general corporate purposes. To date, we have not drawn on the Credit Agreement.

In connection with the build-out of our future headquarters located at 1166 Avenue of the Americas, we expect to incur costs of approximately \$35 million to \$45 million, net of lease incentives, by the end of fiscal year 2023. During the first half of 2023, all of the costs incurred in connection with the build-out qualified for reimbursement from the landlord. The lease for our current headquarters, also in New York City, is scheduled to expire in January 2024.

We have committed to invest up to \$50.0 million in Cohen & Steers Real Estate Opportunities Fund, L.P. (REOF) of which \$28.8 million remains unfunded. In addition, we have committed to invest up to \$125.0 million in Cohen & Steers Income Opportunities REIT, Inc. (CNSREIT) of which \$124.8 million remains unfunded. The timing for funding the remaining portion of our commitments is determined by the investment vehicles.

# Cash flows

Our cash flows generally result from the operating activities of our business, with investment advisory and administration fees being the most significant contributor.

The table below summarizes our cash flows:

		iths Enne 30,	ths Ended e 30,		
(in thousands)	2023		2022		
Cash Flow Data:					
Net cash provided by (used in) operating activities	\$ 38,715	\$	(48,770)		
Net cash provided by (used in) investing activities	(31,222)	)	(43,601)		
Net cash provided by (used in) financing activities	(77,100)	)	39,093		
Net increase (decrease) in cash and cash equivalents	(69,607)	)	(53,278)		
Effect of foreign exchange rate changes on cash and cash equivalents	2,044		(4,526)		
Cash and cash equivalents, beginning of the period	248,714		184,373		
Cash and cash equivalents, end of the period	\$ 181,151	\$	126,569		

Cash and cash equivalents decreased by \$69.6 million, excluding the effect of foreign exchange rate changes, for the six months ended June 30, 2023. Cash flows from operating activities primarily consisted of net income adjusted for certain non-cash items and changes in assets and liabilities. Net cash provided by operating activities was \$38.7 million for the six months ended June 30, 2023. Net cash used in investing activities was \$31.2 million, which included purchases of property and equipment of \$20.1 million, primarily related to the build-out of our future headquarters and net purchases of U.S. Treasury securities held for corporate purposes of \$11.5 million. Net cash used in financing activities was \$77.1 million, including dividends paid to stockholders of \$56.2 million and repurchases of common stock to satisfy employee withholding tax obligations on the vesting and delivery of restricted stock units of \$20.6 million.

Cash and cash equivalents decreased by \$53.3 million, excluding the effect of foreign exchange rate changes, for the six months ended June 30, 2022. Cash flows from operating activities primarily consisted of net income adjusted for certain non-cash items and changes in assets and liabilities. Net cash used in operating activities was \$48.8 million for the six months ended June 30, 2022, which included net investment purchases of \$142.8 million resulting from the consolidation of certain investment vehicles. Net cash used in investing activities was \$43.6 million, which included net purchases of U.S. Treasury securities held for corporate purposes and securities held directly for the purpose of establishing performance track records of \$42.5 million. Net cash provided by financing activities was \$39.1 million, including net contributions from noncontrolling interests of \$117.8 million, partially offset by dividends paid to stockholders of \$53.7 million and repurchases of common stock to satisfy employee withholding tax obligations on the vesting and delivery of restricted stock units of \$25.8 million.

### **Contractual Obligations, Commitments and Contingencies**

The following table summarizes our contractual obligations at June 30, 2023:

(in thousands)	Remainder of 2023	2024		2025		2026		2027	Thereafter	Total

<sup>(1)</sup> Represents contracts that are either noncancellable or cancellable with a penalty. Our obligations primarily reflect information technology equipment, software licenses and standard service contracts for market data.

#### Dividends

Subject to the approval of our Board of Directors, we anticipate paying dividends. When determining whether to pay a dividend, we take into account general economic and business conditions, our strategic plans, our results of operations and financial condition, contractual, legal and regulatory restrictions on the payment of dividends, if any, by us and our subsidiaries and such other factors deemed relevant.

On August 3, 2023, we declared a quarterly dividend on our common stock in the amount of \$0.57 per share. This dividend will be payable on August 24, 2023 to stockholders of record at the close of business on August 14, 2023.

## **Critical Accounting Estimates**

A complete discussion of our critical accounting estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2022. There were no changes to the Company's accounting estimates for the three months ended June 30, 2023.

#### Recently Issued Accounting Pronouncements

See discussion of Recently Issued Accounting Pronouncements in Note 2 of the condensed consolidated financial statements.

<sup>(2)</sup> Consists of the transition tax liability based on the cumulative undistributed earnings and profits of our foreign subsidiaries in connection with the enactment of the Tax Cuts and Jobs Act in 2017.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

In the normal course of our business, we are exposed to risk as a result of changes in interest and currency rates, securities markets and other general economic conditions which may have an adverse impact on the value of our assets under management and our seed investments. The majority of our revenue is derived from investment advisory and administration fees which are based on average assets under management. Accordingly, where there are changes in the value of the assets we manage as a result of market fluctuations, our revenue and the value of our seed investments may change.

The economic environment may also preclude us from increasing the assets we manage in closed-end funds. The market conditions for these offerings may not be as favorable in the future, which could adversely impact our ability to grow the assets we manage. Depending on market conditions, the closed-end funds we manage may increase or decrease their leverage in order to maintain the funds' target leverage ratios, thereby increasing or decreasing the assets we manage.

### Corporate Seed investments—net

Our seed investments are comprised of both liquid and illiquid holdings. Liquid seed investments are generally traded in active markets on major exchanges and can typically be liquidated within a normal settlement cycle. Illiquid seed investments are generally comprised of limited partnership interests in private real estate vehicles for which there may be contractual restrictions on redemption.

Our seed investments are subject to market risk. We may mitigate this risk by entering into derivative contracts designed to hedge certain portions of our risk. The following table summarizes the effect of a ten percent increase or decrease on the carrying value of our seed investments, which are presented net of noncontrolling interests, if any, as of June 30, 2023 (in thousands):

_		Carrying Value		Notional Value - Hedges		Net Carrying Value		Net Carrying Value Assuming a 10% increase		Net Carrying Value Assuming a 10% decrease	
Liquid seed investments—net	\$	70,083	\$	(40,996)	\$	29,087	\$	31,996	\$	26,178	
Illiquid seed investments—net	\$	17,739	\$		\$	17,739	\$	19,513	\$	15,965	

#### Item 4. Controls and Procedures

#### **Internal Control over Financial Reporting**

There has been no change in our internal control over financial reporting that occurred during the three months ended June 30, 2023 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### **Disclosure Controls and Procedures**

Under the direction of our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective.

#### **PART II—Other Information**

#### Item 1. Legal Proceedings

For information regarding our legal proceedings, see Note 11, *Commitments and Contingencies*, in the Notes to Condensed Consolidated Financial Statements contained in Part I, Item 1 of this report.

#### Item 1A. Risk Factors

For a discussion of the potential risks and uncertainties associated with our business, please see Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2022 (the Form 10-K). There have been no material changes to the risk factors disclosed in Part 1, Item 1A of the Form 10-K.

# Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities

During the three months ended June 30, 2023, we made the following purchases of our equity securities that are registered pursuant to Section 12(b) of the Securities Exchange Act of 1934.

Period	Total Number of Shares Purchased (1)	erage Price I Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
