March 1, 2026 Transaction Price

The transaction price for each share class of our common stock sold in this offering for subscriptions accepted as of March 1, 2026 (and repurchases, if applicable, as of February 28, 2026) is as follows:

	Transaction Price (per share)	
Class T	\$	11.21
Class S	\$	11.21
Class D	\$	11.21
Class I	\$	11.21
Class F-I	\$	11.03

The transaction price for each of our Class I shares and Class F-I shares is equal to such class’s NAV per share as of January 31, 2026. A detailed presentation of the NAV per share is set forth below.

As of January 31, 2026, we had no Class T shares, Class S shares or Class D shares outstanding. As a result, the transaction price for each of our Class T shares, Class S shares and Class D shares is based on the NAV per share for our Class I shares as of January 31, 2026. The purchase price of our common stock for each share class equals the transaction price of such class, plus applicable upfront selling commissions and dealer manager fees. The repurchase price for each share class equals the transaction price of such class.

Consistent with our disclosure in the Prospectus regarding our NAV calculation, our investments in real estate are initially valued at cost. Set forth below are the weighted averages of the key assumptions in the discounted cash flow methodology used in the January 31, 2026 valuation of our investments in real estate not valued at cost.

Property Type	Discount Rate	Exit Capitalization Rate
Community shopping center	8.12 %	7.03 %
Grocery-anchored shopping center	8.18 %	6.66 %

These assumptions are determined by our independent valuation advisor and reviewed by the Advisor. A change in these assumptions would impact the calculation of the value of our investments in real estate. For example, assuming all other factors remain unchanged, the changes listed below would result in the following effects on our investments in real estate value:

Input	Hypothetical Change	Community Shopping Center Values	Grocery-Anchored Shopping Center Values
Discount Rate	0.25% decrease	1.59 %	1.90 %
(weighted average)	0.25% increase	(2.03)%	(1.83)%
Exit Capitalization Rate	0.25% decrease	1.63 %	2.26 %
